

**GRADUATE STUDENT FINAL SEMESTER VERIFICATION
FOR OPTIONAL PRACTICAL TRAINING (OPT) PURPOSES ONLY**

According to immigration regulations, international students must be enrolled full-time during each Fall and Spring semester. The International Students and Scholars (ISS) office is required to report the enrollment status of all international students in the Student & Exchange Visitor Information System (SEVIS). At Oklahoma State University, full-time enrollment status for graduate students is defined as 9 semester hours for students with no assistantship or with an assistantship less than 0.50 FTE (20 hours per week), or 6 semester hours for students with an 0.50 FTE. However, in the *final semester* of study, students may be permitted to enroll in a course of study that is less than full-time (but is still subject to any requirements of their graduate assistantship). Hence, it is essential to verify that an international student desiring to be enrolled less than full-time is **indeed entering their final semester**.

Graduate students entering what they intend to be their final semester must verify with the academic advisor, that it is for certain their final semester and can qualify to apply for OPT. This verification form must be completed with the required signatures and submitted to OPT I-20 request on ISS Terra Dotta portal.

If the graduate student is under-enrolled for the final semester and fails to complete the degree, the student will be considered out of status with immigration and could forfeit their OPT. It is necessary that the graduate students and their academic advisors agree that the student can complete the requirements for the degree during the specified final semester.

As stated above, this verification form is a prerequisite to an application for Optional Practical Training (OPT). This form must be submitted to ISS as confirmation that the student is expected to complete the degree at the time of the OPT application.

*Please be advised that graduate certificate programs do not qualify for OPT.
